Dear Colleague,

The British Heart Foundation (BHF) is pleased to announce the launch of a second round of funding to develop, test and implement community approaches to the detection of high blood pressure across the UK. Please find more details on the Blood Pressure Award Programme in the Briefing Document attached.

The BHF would like to invite you to attend one of two briefing events (in London or Edinburgh). The event will provide an important opportunity to learn more about the programme, the application process and to ask questions. Due to the high volume of interest in the award programme, we are restricting the invitation to one representative per organisation, or application in the case of joint bids. Further details, including an agenda for the briefing event will be circulated in early November.

**Please note that in order to be eligible to apply for these awards, a representative from the applicant organisation is required to attend one of the briefing events.**
